

**Hello,**

My name is **Leonard James Emperado**, currently lived in the Philippines and I'd love to help you launch your new website. I am a web developer, web designer, and graphic designer who has worked on over 20 different websites and 10 logos, 10 graphic arts, and wallpapers. I graduated with a BS in Information Technology and currently worked in an IT Tech Company as a web developer for 2 years and have worked with startups to build their web presence over the past 6 years with basic HTML, CSS, Javascript, and Bootstrap align with PHP and Ajax.

If you are looking for a different type of website than the ones above, I'd be happy to tailor it to your needs. I understand you are a new company and I am happy to be flexible to make sure we work with your timeline. Could you tell me more about your target market and audience? If you are unsure, I can brainstorm with you on this point.

Do let me know if you have any questions and I am excited to have the possibility to work on this project!

Best regards,

**Leon James Emperado**

**P.S.: Do you offer for part time jobs?**
